## Tips for using the 1930 U.S. Census

### Try a different spelling

A little known fact about the online census is the "Soundex" feature. Keywords are often categorized by the sound of the last name, meaning you might find additional information by using more than one spelling.

### Watch for neighbors

When recording census information about your ancestors, remember to look at the families listed immediately before and after that ancestor. Often, family members would live near one another, and even if they don't appear to be related (a different married name, for example) they may be part of the same family.

### Print and preserve

Transcription helps with fact checking and provides easy-to-read reference sheets. Print a copy of each individual census record then transfer the information to our [free census chart](#) (PDF 136K). [Get Adobe Reader](#).
